## **Fort Wainwright Prescribed Burns**

Ft. Wainwright, AK — The US Army Alaska and the Bureau of Land Management's Alaska Fire Service will conduct multiple prescribed burns in the Yukon Training Area on Fort Wainwright. Spring 2008 burn projects include the Small Arms Complex, Stuart Creek Impact Area, and the Manchu Range.

The prescribed burns will occur between May 2 and early June as weather conditions and military training schedules allow.

The purpose of the burns is to reduce areas of trees, brush and cured grass to assist in preventing serious wildfires from occurring as a result of military training activities. The size of the individual burns will vary.

Firefighters from the Alaska Fire Service and Fort Wainwright will be present to monitor and hold the fire at fire lines and other boundaries. Smoke may be visible in and around Fairbanks, Fort Wainwright, North Pole and Eielson AFB as a result of the burning operations.

For more information about prescribed fires, contact the Fire Information Office at the Alaska Fire Service, 907-356-5511 or visit the BLM Alaska Fire Service website:
